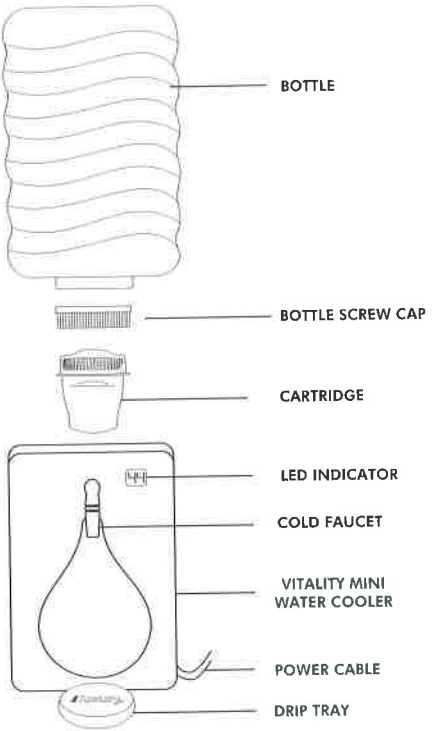
Fast flowing

Energy efficient

Quiet operation

Ideal for:
Your Home and Office Desk
A Healthy lifestyle
Atheletes
Slimming And Weight Management



WARNINGS...

1. Keep all electrical appliances out of the reach of children.
2. Ensure that the outlet is Grounded.
3. Do not dismantle or open unit. Send to an authorized agent or distributor for repairs.
4. Ensure that the unit has at least 6 inches space between the back of the unit and the wall in order for air to circulate.
5. NEVER IMMERSE UNIT INTO WATER.
6. Always ensure your water cooler is on a flat, stable surface.
7. Should be operated between 53°F - 89°F for optimum operation.
8. This device is not suitable for outdoor use.
9. In the VERY unlikely event of this device freezing up, switch OFF the machine and allow to dry at room temperature for at least 48 hours.
10. If the supply cord is damaged it must be replaced by the manufacturer, service agent or similarly qualified person.
11. Fill your unit with warm water (not boiling) and add a few drops of dish washing liquid (Ensure the filter is not in the unit). Fill unit with tap water (The unit must not be plugged into the plug point). Remove the drainage plug underneath and then rinse through the unit with 2-3 bottles of clean water. Never dismantle the unit other then as indicated previously for cleaning purposes.
12. This product is to be used with municipal tap water or bottled purified water ONLY.

TIP. WHEN NOT IN USE FOR 2 DAYS OR MORE, PLEASE SWITCH OFF THE UNIT IN ORDER TO EXTEND THE LIFE OF YOUR WATER COOLER.
ESSENTIAL RINSE FIRST BEFORE USE*.
ENSURE UNIT IS NOT PLUGGED INTO OUTLET WHEN WASHING.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning use of appliance by a person responsible for their safety.Children should be supervised to ensure that they do not play with the appliance.

SIMPLICITY OF USE...

To replace the Vitality filter cartridge for the Vitality water cooler, simply follow these instructions:

1. Fill bottle with cold faucet water

2. Close the bottle screw cap tightly

3. Fit the filter cartridge into the unit

4. Turn bottle upside down into unit

IMPORTANT

ENSURE THE BACK OF THE UNIT IS 6 INCHES AWAY FROM THE WALL.

Pull back clip and remove top resevoir cover in order to clean

(TIP-Vitality filter- on first use flush filter under running faucet to clear any loose carbon)

Wait ± 40 minutes before use, to allow water to run through filter and into cooling unit.

Tips:

1. To ensure your unit is kept clean, we recommend using the Little Luxury Crystal Spring® Water cooler and water filter cleanser every 3 months.
2. To clean the bottle, use a few drops dishwashing liquid and half fill the bottle with lukewarm water.
3. If flow of water stalls and stops flowing freely after filter is reinserted or replaced, remove filter and shake to loosen carbon, and reinsert.

(**Note: DO NOT USE HOT WATER** .(Let the water out and rinse with fresh water once or twice then drain.)

CARTRIDGE REPLACEMENT GUIDE: EVERY 1-3 MONTHS MAX

IT IS RECOMENDED THAT THE FILTER BE REPLACED ONCE A MONTH FOR CLEAN, HEALTHY, GREAT TASTING WATER.

Warranty

This is your sole warranty in relation to the product sold to you.

U.S Patent Numbers:
Patent No: 7882705
This product incorporates the copyright protection technology that is protected by U.S patents and other intellectual property rights. Reversed engineering or dismantling is strictly prohibited and financial remedy will be legally sought.

Trouble Shooting:

1. WATER THAT IS NOT COMING OUT OF FAUCET:

It will take a maximum of an hour for the water to flow through the filter and into the tank when using a new filter.

If no water filters through from the faucet after the given time period, gently tilt the bottle as there may be an air bubble lock.

If the problem persists, carefully remove the bottle and filter, shake the filter for 30 to 40 seconds and place back into position.

If water not coming out of faucet and if room temperature is below 50°F, switch unit off for 12 hours as the water is freezing in tank.

* IF THE FILTER IS OLDER THAN 3 MONTHS REPLACE THE FILTER AS IT MAY BE SATURATED.

2. IF THE UNIT IS NOT COOLING:

Ensure the ON/OFF switch on back is switched to the "ON" position. Ensure it is switched on at the outlet.

3. IF THE UNIT IS HEATING THE WATER:

It could be that your terminals are incorrect but it would be best to return the unit directly to us for this problem. Please find our contact details listed on the back of this manual.

4. IF THE UNIT IS LEAKING:

a) Water leaking underneath the unit- ensure that the silicone drain plug is secured under the unit.

b) Water leaking from the faucet- move the faucet handle around a few times slowly to better seat the stopper.

c) Water leaking from the screw on cap on the bottle- a small amount of water dripping from this area does not pose a problem and you should not be concerned - but just ensure the screw caps silicone ring is in place by gently pressing the screw cap inside up and down.

GROUNDING INSTRUCTIONS:

WARNING: Improper use of the grounding plug can result in a risk of electric shock causing serious injury, even death.

Consult a qualified electrician if the grounding instructions are not completely understood, or if doubt exists as to whether the appliance is properly grounded.

If the outlet is a standard 2 - prong wall outlet, it is your personal responsibility and obligation to have it replaced with a properly grounded 3 - prong wall outlet.

. Do not under any circumstances cut or remove the third (ground) prong from the power cord.

. Do not use an adapter plug with this appliance.

. Do not use an extension cord with this appliance if the power plug is too short, have a qualified electrician install an outlet near the appliance.

. For best operation, plug the appliance into it its own electrical outlet on a dedicated circuit to prevent flickering of lights, blowing of fuse, or tripping of circuit breaker.

Proper Disposal of the Water Dispenser and Filter

Filters - can be broken down and carbon can be placed in the garden provided it is not near any edible fruits, vegetation or plants.

Aluminium heat sinks - can be recycled.

ABS Plastics can be reground.

Electronic components - can be recycled or appropriately disposed of.

Register your Little Luxury

By registering your Little Luxury unit, you will qualify for our Limited One Year Warranty.

1) Register online now @ www.littleluxury.com (preferred method)

All you need to do is create an account. Go to "contact us" and select the Warranty Registration Option. Submit the required information which will include your Serial Number, Date and Place of Purchase. You will receive a confirmation email.

2) Register by completing and mailing in the warranty card at the back of your user manual to:

LITTLE LUXURY
100 MIDDLESEX
CENTER BOULEVARD
SUITE 2B
JAMESBURG
NJ
08831
USA

By registering your unit, we can confirm the date of purchase for your product, which is important for warranty purposes. This confirmation is of benefit to you, especially if your original proof of purchase is lost. Please note that this warranty is void if your Little Luxury Vitality unit is used in a commercial/large office environment.
Registering your cooler will also keep you connected with Little Luxury. Please note:
Little Luxury licensed units should be registered directly with the manufacturer.
Please see contact information.
Warranty Information
Limited One Year Warranty

Little Luxury warrants that your Little Luxury Vitality will be free of defects in materials or workmanship under normal home use for one year from the date of purchase. Little Luxury will, at its option, repair or replace the unit without charge upon its receipt of proof of the date of purchase. If a replacement unit is necessary to service this warranty, the replacement unit may be new or reconditioned. If a replacement cooler is sent, it will carry a One Year Warranty from the date of shipment. Little Luxury will cover all shipping costs for authorized returns.

This warranty only applies to Little Luxury Vitality units operated in the United States and Canada.

What is not covered by the Limited Warranty?

THIS WARRANTY DOES NOT COVER CONSEQUENTIAL OR INCIDENTAL DAMAGES SUCH AS PROPERTY DAMAGE AND DOES NOT COVER INCIDENTAL COSTS AND EXPENSES RESULTING FROM ANY BREACH OF THIS WARRANTY, EVEN IF FORESEEABLE

Nor does this warranty cover damages caused by services performed by anyone other than Little Luxury or its authorized service providers, use of parts other then genuine Little Luxury parts, or external causes such as abuse, misuse, including use in an office or other commercial setting, inappropriate power supply or acts of God.

Other Limitations

THIS WARRANTY IS EXCLUSIVE AND IS IN LIEU OF ANY OTHER EXPRESS WARRANTY, WHETHER WRITTEN OR ORAL. THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, IS EXPRESSLY LIMITED TO THE PERIOD OF DURATION OF THIS LIMITED WARRANTY.

How do you obtain warranty service?

Little Luxury Vitality is a high quality appliance and, with proper care, is intended to provide years of satisfying performance. However, should the need arise for warranty servicing; simply call Little Luxury Customer Service on 973 535 1000 or email us at usa@littleluxury.com. Please do not return your unit for servicing without first speaking to Little Luxury Customer Services to obtain an Authorization to Return number (ATR). Little Luxury units returned without an ATR number will be returned to the sender without servicing.

Only use Vitality replacement cartridges

Instructions may change at companies discretion and model type.

ADD A NEW TWIST TO YOUR FILTERED WATER BY ADDING SOME FLAVOR

It's hard to always choose plain filtered water when we're constantly surrounded by sweeter, nicer tasting and more flavorful options. Sadly these options usually have sugar, calories, artificial sweeteners and a load of unhealthy additives. If your daily routine of having eight glasses of filtered water per day has you bored, try some of these ideas to put a new spin on your water routine:

TEA

Tea can be a wonderful, low-calorie (and sometimes caffeinated!) way to get the water we need to stay healthy. Filtered water removes unwanted minerals so it is free of any unpleasant tastes and smells. Black tea has been shown to lower levels of the stress-producing hormone cortisol; green tea is loaded with antioxidants that help strengthen your immune system; and hibiscus tea is high in vitamin C and has been shown to reduce blood pressure. There are many varieties of teas out there in various flavor options which can be enjoyed hot or cold.

MINT

Mint is a great addition to a glass of water – especially in the warmer months Add a few sprigs to a pitcher of water to give each glass a crisp, minty kick. Let the jug mellow in the fridge for about 10 minutes or even overnight if you'd prefer a stronger taste. For an even mintier edge, bruise the leaves before adding them to the jug.

Ginger

There's a reason ginger is used to cleanse the palate between bites of sushi: it's got a crisp, cool taste that, as it turns out, also goes really well with a glass of cold water. Try making ginger juice the same way that you would make cucumber juice – only use a grater instead of a blender. You can add the ginger juice to a pitcher of water, or you can buy ginger juice.

LEMON OR CRANBERRY ICE CUBES

Keep your water ice-cold and tasty with home-made lemon or cranberry ice cubes. (You can use any fruit or veggie you want, depending on your preference.) For cranberry ice cubes, place one or two cranberries in each square of the ice cube tray, cover with water and freeze. For lemon ice cubes, slice the fruit up and use a cupcake tray.

CUCUMBER, MELON AND MINT

Don't be afraid to try combinations of any of the ideas listed above.

WHY USE LITTLE LUXURY FILTERS?

Little Luxury water filters remove nearly all the Chlorine found in unfiltered tap water which acts like a bleach depleting flavor while being a known carcinogen for both man and animal. Filtered tap water tastes much better than bottled water. When using Little-Luxury water filters you can taste and visibly see the difference in the clarity of your tea. Our filtered water is also recommend for cooking as it enhances the taste of any dish and is safer for pets water. It's no surprise that the USA Cancer Panel recommends our type of water filter - drink to your health!

ADD A NEW TWIST TO YOUR FILTERED WATER BY ADDING SOME FLAVOR

ORANGE SLICES AND VANILLA BEAN WATER

RASPBERRY AND PINEAPPLE ICE CUBES

APPLE AND CINNAMON WATER

STRAWBERRY AND BASIL WATER

BLUEBERRIES, PEACH, LEMON AND MINT WATER

JALAPENO AND WATERMELON WATER

ADD A NEW TWIST TO YOUR FILTERED WATER BY ADDING SOME FLAVOR

LIME SLICES AND BASIL WATER

BLACKBERRIES AND SAGE WATER

CUCUMBER SLICES AND LEMON GRASS WATER

CUCUMBER

A handful of cucumber slices added to a pitcher of water can make all the difference. But if you'd like to take it a step further, try grinding up cucumber chunks in a blender, pouring the cucumber juice through a sieve into a bowl and leaving it in the fridge to drip overnight. Mix the juice with a cold pitcher of water the next day, and you've got yourself the most refreshing water you've ever tasted.

HIBISCUS FLOWERS

This one is a twist on tea since it requires steeping hibiscus flowers. The only difference is that we suggest chilling the water after you infuse it so you're left with a cheery-looking, light pink glass of water with a slightly tart flavor. Hibiscus flowers will require about 10 minutes to steep.

LEMON OR LIME

To add some flavor to your water at work, try bringing a lemon or lime to the office with your water bottle. Or you could buy lemon or lime juice and keep that in the office fridge to use whenever you need it.
